PREDATOR LTD

/ BOX

FRAME:	Carbon
SURFACE:	Carbon 12K
LENGTH:	45,5 cm
THICKNESS:	38 mm
FOAM:	HARD BLACK
WEIGHT:	360g (+/- 10g)
BALANCE:	Medium (+/- 10g)

The **Predator LTD 2026** is one of Heroe's most iconic rackets, a true legend since 2018. Designed for professional players, its diamond shape generates explosive power and aggressive trajectories, giving full dominance on the court.

The Predator Bridge with Vibra X ensures stability and vibration reduction even on the hardest shots, while the 12K Carbon face provides a crisp, decisive response.

This **limited edition** celebrates Heroe's legacy, the perfect choice for those who play to win.

LENGTH:	45,5 cm
THICKNESS:	38 mm
FOAM:	HARD BLACK
WEIGHT:	360g (+/- 10g)
BALANCE:	Medium (+/- 10g)

The **Azteca 2026** is ideal for players who love to attack and dominate the game with precise, aggressive shots. Its completely redesigned aerodynamic frame, featuring Air Flow Technology and engineered channels, reduces air resistance and enhances movement speed and shot fluidity. The Predator Bridge System with Vibra X ensures optimal vibration absorption, offering comfort without sacrificing power. The 12K Carbon face provides a solid feel and maximum reactivity, perfect for advanced players looking to push every shot to its limit. Heroe's customized 3D Spin technology allows the face to retain the ball longer, optimizing spin and shot accuracy.

Compact, stable, and bold, the Azteca 2026 transforms every rally into an opportunity to attack.

LENGTH:	45,5 cm
THICKNESS:	38 mm
FOAM:	MEDIUM BLACK
WEIGHT:	360g (+/- 10g)
BALANCE:	Medium (+/- 10g)

The **Animal 2026** is designed for regular players who seek maximum ball control without compromising maneuverability. Its round shape guarantees a wide and stable sweet spot, offering a balanced and precise response at every stage of play. The 18K Carbon provides excellent structural rigidity and a solid feel on impact, while the EVA Medium foam perfectly balances comfort and power, ensuring consistent energy return.

Heroe's 3D Spin technology introduces a special texture on the racket surface that enhances ball grip, improving spin and shot precision.

Thanks to the Air Flow System, the frame has been redesigned to reduce air resistance, making the racket faster and more responsive in every movement.
